

## The Ultimate in Security & Versatility for your New Mac Mini

**Versatile** - can be attached to mounting surface in a variety of ways.

- Bolted directly to the desk for Maximum Security.
- Direct adhesive tape (can be professionally removed without any surface damage).
- Attached in between a monitor and base for more work space.

**Adds Options** - Can be mounted behind the monitor to create a clean, efficient and secure workspace.

**Convenient** - Wires are easily accessible while keeping the computer completely secure and ventilated.

**Maximum Security** - Key lock security prevents theft and unauthorized access.

**Simple & Clean Design** - Enclosure hugs cpu chassis making for a small footprint while staying true to the aesthetic.
